

PRESSMAX

XtraMax Damp Wash F10

FAST DRYING DEGREASER AND CLEANER FOR DAMPENING ROLLERS

Key Characteristics

- ✓ Flash Point < 0°C
- ✓ Fast evaporation
- ✓ Leaves no residues
- ✓ Water miscible

Directions for use

Apply on moist cleaning cloth and wipe slowly the surface of the dampening roller, while removing grease, dust and ink residues. Attention! Do not spill in the dampening system, do not smoke and keep away from heat sources during application. Avoid contact with the printing plate.

Transport and storage

Protect against extreme weather conditions. Do not store at temperature above 35 °C or below -10 °C. Take necessary precautions to avoid environment pollution due to accidental leakage.

Packaging

- 12 x 1 L plastic bottles
- 4 x 5 L plastic drum
- 25 L plastic drum
- 200 L plastic drum

Features and benefits

Fast evaporation

- ✓ Easy and quick in use.
- ✓ Does not leave any residues.

Free of chlorinated and aromatic hydrocarbons

- ✓ Safer and lower environmental impact.

Strong dissolving power

- ✓ Quickly removes grease, dirt and ink residues.
